SMART STORAGE SYSTEM

#1 Smart Storage Kit

Ceiling Shoe Storage Box

The high quality ceiling shoe storage box is light and easy to fold up and down and has room for 12 pairs of shoes. Because of the user-friendly access customers do not have to climb a ladder but bring the storage space down just like a closet.

The gas springs in the ceiling storage box ensure safe and easy opening and closing. The ceiling shoe storage gives customers the ability to store their shoes, trainers and boots in a fast, but smart solution.

The fittings are made of steel and attached onto the lid of the cover box, they can also accommodate shoes in various sizes.

Adjustable fittings enable customers to customise the distance between shoes.

Package includes:

- 1 x Storage Box & 1 x Shoe Holder
- 2 x Beam-It-Up Beams 94-124cm
- 2 x Beam-It-Up Wall Rails 130cm
- 1 x Set Fischer Screws PH 6x60mm, Duo Power Plug & Duo Tec Toggle-Plug

#3 Smart Storage Kit

Open Storage Kit (Storage Net)

The ceiling storage net is flexible and strong, the frame is made from square steel.

Customers can easily move the storage net in the BEAM-IT-UP where they require it. The storage net is 120 cm long and 60 cm width, and it is powder coated in RAL 9010 and has a maximum load of 25 kg.

The net is made of woven nylon ribbon that is braided, and the belt has very high tensile strength. The storage net can easily be combined with the storage shelf, the storage boxes or just alone. The storage net is a smart solution to optimize customer's storage in narrow hallway, while keeping their items visible without being untidy.

Package includes:

- 1 x Storage Net
- 2 x Beam-It-Up Beams 94-124cm
- 2 x Beam-It-Up Wall Rails 130cm
- 1 x Set Fischer Screws PH 6x60mm, Duo Power Plug & Duo Tec Toggle-Plug

#2 Smart Storage Kit

Storage Ceiling Box with Organiser

The high quality storage box construction conveniently folds up and down.

Because of the user-friendly access customers do not have to climb a ladder but bring the storage space down just like a closet.

The gas springs in the ceiling storage box ensure easy and safety when opening and closing.

The storage box is a smart and innovative storage solution to hide away their daily items but also an excellent and clever way to store the seasonal equipment.

Package includes:

- 1 x Storage Box & 1 x Organizer with three (3) compartments
- 2 x Beam-It-Up Beams 94-124cm
- 2 x Beam-It-Up Wall Rails 130cm
- 1 x Set Fischer Screws PH 6x60mm, Duo Power Plug & Duo Tec Toggle-Plug

#4 Smart Storage Kit

Open Storage Kit (Storage Shelf)

The storage shelf is made from fibreboard and due to the strong material, the shelf can hold all type of items from suitcases to boxes.

The storage shelf is a part of the BEAM-IT-UP storage solution, a sturdy, flexible and innovative storage solution.

BEAM-IT-UP takes advantages of unused space and opens the room, it gives the house added value, and makes life easier and more comfortable for the occupants.

The storage shelf is a great combination including storage boxes and net options. The storage shelf is easy to install and can be placed anywhere in the BEAM-IT-UP construction, a very user-friendly installation.

Package includes:

- 1 x Storage Box & 1 x Shoe Holder
- 2 x Beam-It-Up Beams 94-124cm
- 2 x Beam-It-Up Wall Rails 130cm
- 1 x Set Fischer Screws PH 6x60mm, Duo Power Plug & Duo Tec Toggle-Plug

Beam-It-Up Ladder

The ladder has 10 treads and connects to the BEAM-IT-UP System, also in white. The string is made from pine and threads are made of beech. Max installation height is 227 cm as defined in instruction manual. The ladder is divided in two (2x 5 threads) so optimized for space saving when it is not in use. The ladder connects to the BEAM-IT-UP system via an assembly bracket and hanger brackets.

Beam-It-Up Operating Pole

Operating pole for BEAM-IT-UP storage box and shoe storage. The BEAM-IT-UP operation pole has got a nice finish in untreated oak. Simple to operate – press the pole on the storage box so that it opens a little bit.

Drag down the storage box with the anti-slip aluminium head of the operation pole.

Frequently asked questions:

Q: Is there a warranty?

A: The Beam-It-Up has a two (2) year warranty.

Q: What measurements are required to install?

A: You must measure the width in between two opposite walls. Based on the width of the room, you can see which of the four different beams you are using and how many modules you can place on them. Your room must be at least 94 cm and a maximum of 214 cm wide to use Beam-It-Up. Minimum 35 cm above the door frame is required. You need a ceiling height of at least 240 cm.

Q: Can I install the Beam-It-Up system myself?

A: Yes. All you need is a drill, a spirit level and a screwdriver. When mounting the wall rail, the wall material must be considered. Just view the installation video or follow the installation manual.

Q: Can I mount and demount the Beam-It-up system several times without problems?

A: Yes, you can take your Beam-It-Up with you when you move and remount it at your new home.

Q: How much weight can the system hold?

A: The storage box: 20 kg; the shoe box: 20 kg; the storage net: 25 kg; the storage shelves: 40 kg. The Beam-It-Up storage system is validated by BIIR engineering. Max load per beam is 150 kg.

Q: What about smoke detectors?

A: Smoke detectors installed above the Beam-It-Up system should be installed in a manner that does not impact its function or effectiveness. This could be achieved by leaving the area below the smoke detector open or relocating outside of the BIU system.
