

Very high-quality crafted attic ladder for DIY installation.

For ceiling heights up to 3.36m.

FEATURES AND BENEFITS:

- Produced according to EN 14975 (European Ladder Standard) and air tight class 4 according to EN 12207.
- 3-section folding spruce wood Attic Ladder.
- Top insulation value (U-value 0.90W/m²)
- 56mm insulated trapdoor reduces heat loss.
- Strong, stable 150kg per step load capacity.
- Gentle 70° access slope.
- Nice finish with white-faced trapdoor and casing with draught excluder for extra tight closing.
- Width (Treads): 358mm; Depth (Treads): 82mm; Thickness (Treads): 28mm.
- Non-slip treads for extra security and plastic feet.
- Handrail is standard for climbing stability.
- Completely assembled from factory.

Customer profile:

Excellent choice for Customers who are looking for a well-suited Attic Ladder with an excellent insulation value for low to non-developed attics or a rarely used roof space.
