

Italian-made electric aluminium concertina attic ladder FANELEC 11 & 12.

Combines a well-designed, stylish concertina ladder with a high-end automated remote controlled operating system.

CUSTOMER PROFILE:

- **Domestic** customers who require automated ladder
- **Commercial** customers who need safe and easy access to storage, air-conditioning, telecommunications, electrical, plant or other equipment.

CUSTOMER BENEFITS:

- Italian-engineered, tested and certified to EN 14975 (European Ladder Standard).
- The electric loft ladder is manufactured from die-cast aluminium and stores completely within the hatch space.
- Can be connected to a 230 volt AC supply via a plug supplied or hard wired.
- The electrical operation of both the trapdoor & loft ladder is controlled by an infrared remote control (supplied).
- Unit has a light fitted to the inside of the trapdoor which flashes (amber colour) when it is in operation.
- Fitted with an automatic stopping feature which enables the unit to avoid obstacles in it's path once in operation.
- Emergency opening and manual operation are possible in case of power failure.
- The treads come fitted with black carpet tiles as standard.
- The ladder comes powder coated in **white** or **light grey**.
- The trapdoor supplied is constructed from 15mm thick high quality plywood.
- Supplied with two telescopic handrails & two top exit grab rails as standard.
- Strong, stable 260kg per step load capacity.

ALSO AVAILABLE IN WHITE

The electrical operation of both the trapdoor & loft ladder is controlled by an infrared remote control (two remotes supplied)
