

### FANTRUSS 10: Italian aluminium scissor attic ladder for truss roofs.

A well-designed, stylish high quality die-cast aluminium concertina ladder.

#### CUSTOMER PROFILE:

- **Domestic** customers with truss roofs who require the maximum in strength, Italian design and ease of use.
- **Commercial** customers who need safe and easy access to air-conditioning, telecommunications, electrical, plant or other equipment.

#### CUSTOMER BENEFITS:

- Italian-engineered, tested and certified to EN 14975 (European Ladder Standard).
- A die-cast aluminium concertina ladder complete with galvanised box frame for strength and longevity.
- Hatchbox constructed from 1.2mm thick steel and measuring 140mm deep
- The hatchbox is fixed into position using 4 clamps which allow it to be installed into a floor thickness up to 280mm.
- The ladder stores completely within the hatch opening.
- 16mm thick trap door from first-choice raw wood chipboard.
- The unit has a counterbalanced spring operation for easy fingertip use.
- A telescopic handrail fitted to the right hand side as standard.
- Two top exit rails for safety and comfort.
- The trapdoor supplied is constructed from 15mm thick high quality plywood.
- Comes complete with operating pole, full installation instructions and fittings.
